Shairport

Shairport is a clone of Apple®'s AirPlay® feature. You can use Shairport featuer on Eunhasu web gui as the same as Apple®'s AirPlay® feature.

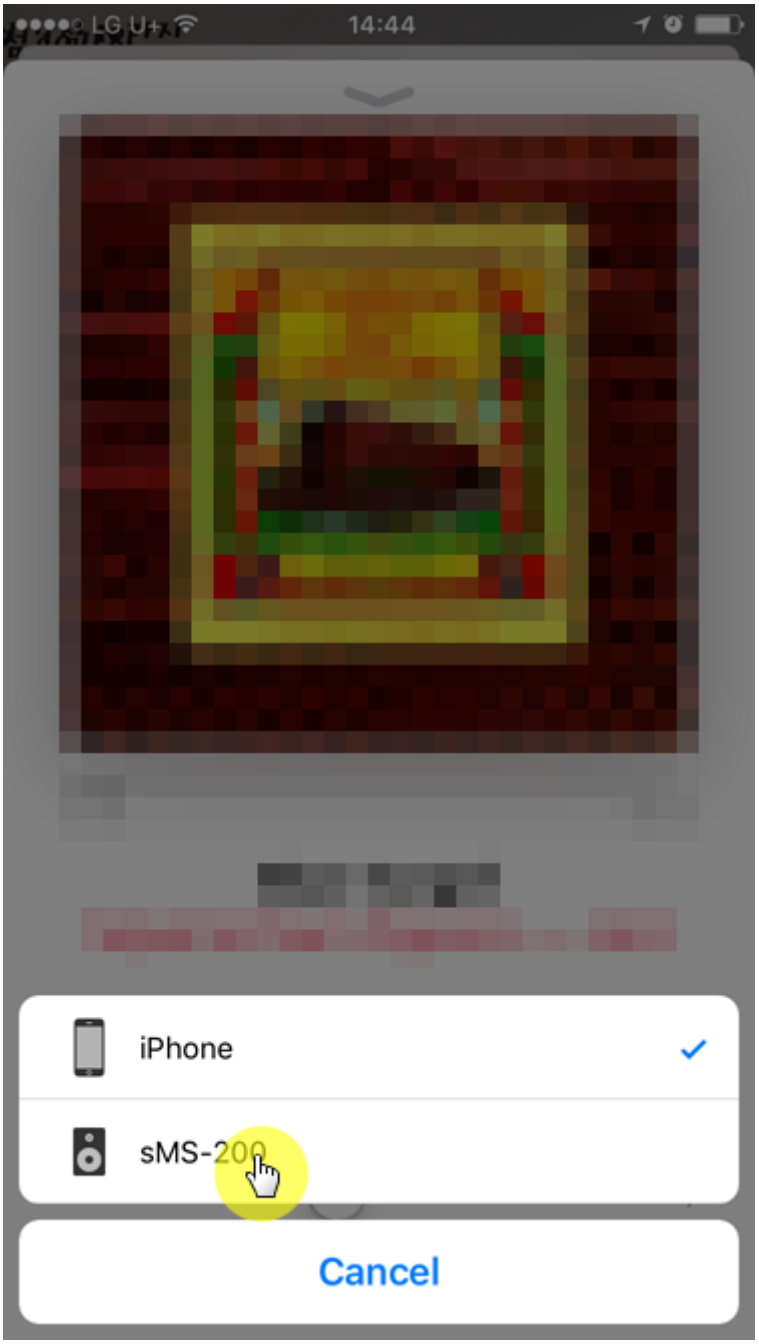

Shairport config page is simple. Activate Shairport feature and check the USB audio device is recognized normally.

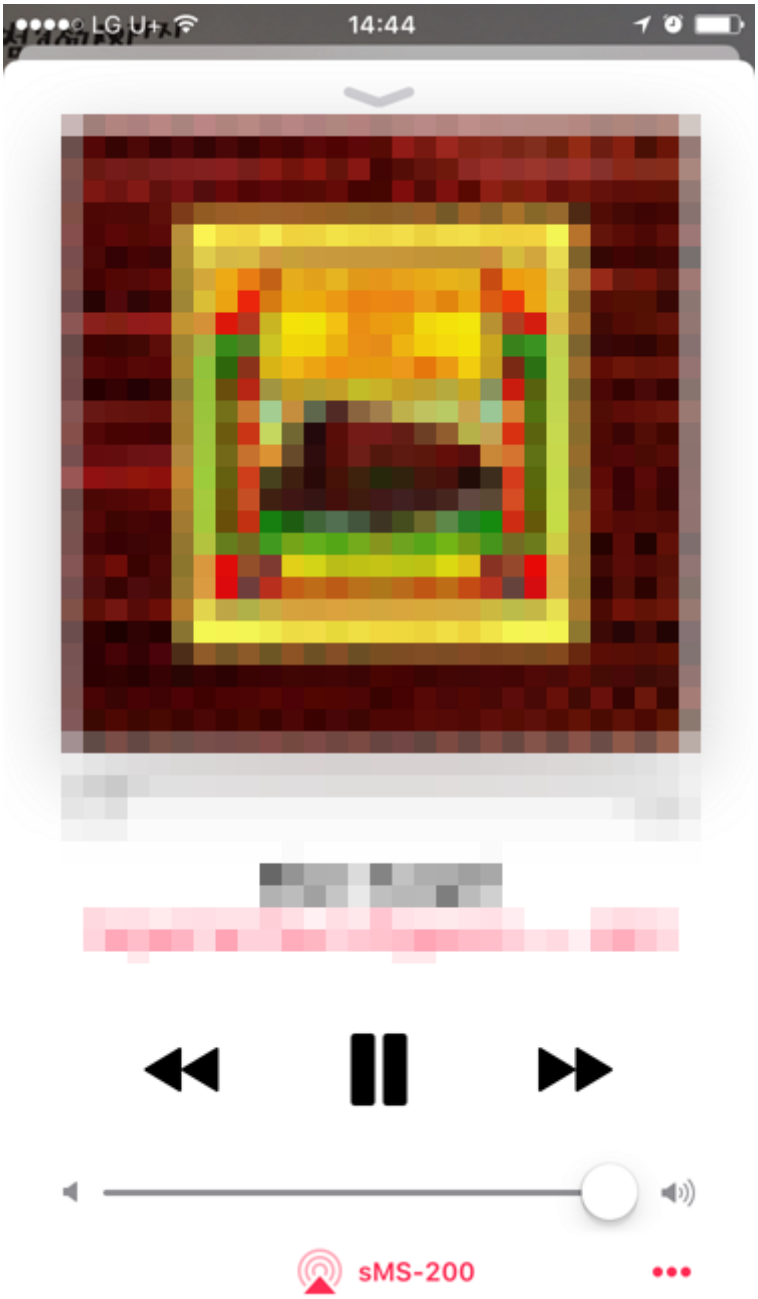

An example of operatiing by Music app. Other apps could be different UI/UX to select an audio output.

Touch airplay icon at the bottom of Music app,

Select an output device like a screen shot. If you select the sMS-200 as an output device, music would be playing out from sMS-200 device.
